*Request for Continued Examination*

1. The request for a continued prosecution application (CPA) under 37 CFR 1.53(d) filed on 4/30/01 is acknowledged. 37 CFR 1.53(d)(1) was amended to provide that the prior application of a CPA must be: (1) a utility or plant application that was filed under 35 U.S.C. 111(a) before May 29, 2000, (2) a design application, or (3) the national stage of an international application that was filed under 35 U.S.C. 363 before May 29, 2000. *See Changes to Application Examination and Provisional Application Practice*, interim rule, 65 Fed. Reg. 14865, 14872 (Mar. 20, 2000), 1233 Off. Gaz. Pat. Office 47, 52 (Apr. 11, 2000). Since a CPA of this application is not permitted under 37 CFR 1.53(d)(1), the improper request for a CPA is being treated as a request for continued examination of this application under 37 CFR 1.114. *See id.* at 14866, 1233 Off. Gaz. Pat. Office at 48.

*Allowable Subject Matter*

2. Claims 1-3, and 5 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record, in particular Cote et al. Fail to disclose performing the draining of the tank and the backwashing simultaneously in the combination of process steps as claimed in claim 1, dependent claims 2, 3, and 5 are also allowed.

Art Unit: 1723

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 6-7, 9-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cote et al.(WO 97/18887). This rejection has been discussed in paper no.10, and considered still proper. Claim 6 is not limited to performing the backwashing and tank draining simultaneously. therefore, the rejection still is proper.

Facsimile no. (703)305-7718.

6. A telephone call was made to Timothy j. Sinnott on 5/7/01 to proposed an amendment to cancel the non-allowed claims, which did not resulted in an agreement being reached.

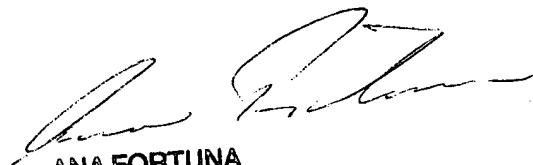

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1723

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
